EDUCATION

Academy of Interactive Entertainment · Aug. 2021 to Aug. 2023
Associates of Occupational Studies in Game Programming 2023

Arkansas Tech University · Aug. 2018 to May 2020
Bachelors in Electrical Engineering with Computer Engineering Option 2020

National Park College · Aug. 2014 to May 2016
Associate's of Science with Engineering Option 2016

PROJECTS

Hamburger Hell

Feb. 2023 to June 2023

I designed and programmed Hamburger Hell with a team of other programmers and artists. My responsibilities involved programming the player's behavior and the UI.

Helheim Pinball

Apr. 2022 to June 2022

At the Academy of Interactive Entertainment, I designed and programmed a Helheim-themed pinball game with two other programmers and three artists. Responsibilities involved, programming UI and some gameplay mechanics.

Click-n-Roll

Apr. 2022 to Apr. 2022

This was a game I made in Unity to learn how to make a cross-platform game. The game can be played on any phone or PC.

Party Palace

Apr. 2020 to May 2020

At Arkansas Tech University, I designed and created a video game with classmates where the player must escape Party Palace.

Design of an Automatic Pet Feeder

Aug. 2018 to May 2020

For my senior design project at Arkansas Tech University, I worked with two electrical engineering students and a mechanical engineering student to build an automatic pet feeder.

VOLUNTEERING

Ambassador Program ·

Ambassador

June 2022 to Current ·

Academy of Interactive Entertainment

As an ambassador for the Academy of Interactive Entertainment, I represented the student body of the school. This program gave me the opportunity to further improve my skills in leadership and communication.
